MACHINES**

**Say Hello to the Future of
Healthy Vending Machines**

MK 1

Our original machine is secure, refrigerated and remotely-monitored with a sleek aluminium design.

Cutlery Tray. Biodegradable wood based cutlery. We aim to minimise the use of plastic.

Touchscreen. 21" ultra-high resolution touch screen for convenient product selection.

Contactless / Mobile Payments. Pay with Card, Apple Pay and Google Pay, and WeChat QR Code Pay

Compact / Easy to Operate. 3 pin standard electrical socket - the only requirement for operation.

MK 2

A slimmer version of The Jar Vending Machine Mk1 with an high resolution 41" touchscreen. Ideal place for the marketing of your products and services.

Marketing on large screen. Make full use of the enlarged, ultra high resolution 42" touch screen to market your product.

On Screen dietary requirements filter. Display vegan/vegetarian or gluten free options and more.

Extensive product range of snacks, drinks, meals. The venue can completely customise the offering or let us do all the work.

Fast vending. Purchase multiple products in one transaction.

Wheelchair accessible
Nutritional info displayed

MK 3

The mix of the best features from Mk1 and Mk2. Same amount of storage as in Mk2 while also being compact in its dimensions. Can be supplied in any colour to match your venue.

Fully managed and fully serviced. Our machines come with a dedicated manager who will provide round the clock customer service.

Temperature controlled remotely and monitored 24/7.

Error proof design. Our vending machines use sophisticated system of sensors with direct feedback to our computers.

Energy efficient. Telemetry connected and fully monitored. Machines can be timer controlled to minimise energy usage and be more sustainable.

THANK YOU!
